Cargo Insurance

Do you have cargo insurance for your shipments? International carriers have limited liability for losses, and it is usually not wise to depend on carrier reimbursement alone. Depending on how your bill of lading or airway bill is worded, your total reimbursement may be limited to a maximum of \$500 per ocean container (or \$9.07 per pound for an air shipment) in the case of a loss. If you would like for us to quote or to place insurance for your shipments, please let us know. Our insurance carrier can cover all risks, door to door.

Please arrange insurance for all future shipments and bill me.

Please prepare a quote for cargo insurance.

Do not arrange insurance. We have our own Cargo Policy.

Do not arrange insurance. Our supplier arranges.

I decline any cargo insurance coverage.
