In *American Scripture*, Pauline Maier traces the evolution of the Declaration of Independence from merely a statement that Americans were dissolving the political bands which had connected them to Great Britain, to an expression of national identity, and more, a moral compass to what it means to be an American. But along the way from a political document to a source of inspiration for all Americans, the Declaration has been understood and used in a myriad of ways, and for a number of purposes. *Interpreting Independence* shall explore such questions as ...

- How have different generations of Americans interpreted the Declaration of Independence to advance the causes and address the concerns of their times?
- How has the Declaration been used to promote various causes?
- Which components of the Declaration have been central to the rhetoric of the time? (“All men are created equal ... endowed by their Creator with certain unalienable Rights”? “To secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed”? Or other ideals and principles set forth in the Declaration?)
- Under what circumstances has the Declaration been used conspicuously? Under what circumstances has it been ignored?

By no means is this list of questions exhaustive. By no means will this conference address all the questions that may be asked about the Declaration. But the conference shall explore the seminal role of the Declaration as *the* Founding Document of the American Republic.

Interpreting Independence: The Declaration Through the Generations shall be dedicated to James Kirby Martin, the Hugh Roy and Lillie Cranz Cullen University Professor of History at the the University of Houston.
